

DINNERWARE BY BARB

Thank you for your interest in my miniature dinnerware creations. All of my dinnerware is designed, poured, handpainted, glazed and fired in my studio. Most of the dinnerware is painted and glazed to order.

In the DESIGN YOUR OWN DINNERWARE category of my website you will find individual dinner plates depicting most of the colors and patterns of dinnerware you can choose from. I encourage you to be creative. You can mix any colors, or colors and patterns, to create dinnerware of your choice. Most patterns can have a color changed to accommodate your request.

Most of my dinnerware, accessory sets and ceramic pieces including my flower pots can be decorated in any of the colors or patterns or combination of colors and patterns shown.

I have created very true to life, service for four, flatware in gold or silver (not precious metal). The handles are available in the standard colors pictured. I can also customize colors to coordinate with most dinnerware.

Table linen (place mats, napkins and aprons) are available in an assortment of colors and patterns. Ask me to help coordinate your dinner set with a pattern or color of fabric. I will do my best to accommodate you.

A set of four glass goblets can also be decorated to coordinate with your choice of dinnerware. The glassware can be painted with patterns to match dinnerware or, the rim of the glasses can be painted to coordinate with your dinnerware. A plain gold or silver rim is very attractive.

If you do not see a color or pattern to your liking please ask. I will try to accommodate your needs. I enjoy creating new designs. Together we can come up with some exceptional ceramic pieces.
